DETAILED ACTION

Election/Restrictions

1. Applicant's election of Invention II in Paper No. 7 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

2. Claims 1-5 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

3. Claims 6-9, 23 and 24 were identified in Paper No. 6 as being generic to a plurality of disclosed patentably distinct species comprising:

Group I drawn to the shaped article species.

Group II drawn to the vibrator species.

Group III drawn to the elastic species.

Applicant elected without traverse, in Paper No. 9, the species of Group II drawn to the vibrator species, reading on claims 17 and 18. **The previously identified generic claims were in error. A new election of species requirement is being made.**

4. Claims 6, 23 and 24 are generic to a plurality of disclosed patentably distinct species comprising:

Group I – using a shaped article to exert pressure (claims 10-16, 25 and 26).

Group II – using a vibrator to exert pressure (claims 17 and 18).

Group III – using an elastic material (claims 19 and 20).

Group IV – using a fluid medium to exert pressure (claims 7-9).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

5. A telephone call was made to Mary Anne Schofield on November 14, 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Victor K. Hwang whose telephone number is (703) 308-2865. The examiner can normally be reached Monday through Friday from 7:30 AM to 4:00 PM Eastern time. The facsimile number for submitting papers directly to the examiner for informal correspondence is (703) 746-4891. The facsimile number for submitting Official papers to Technology Center 3700 is (703) 872-9302 and for submitting papers After Final to Technology Center 3700 is (703) 872-9303.

Any Inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Technology Center 3700 receptionist at (703) 308-0858.
